- ◆ Warranty: 1 year (only covers non-human-caused damage)

*Thank you for choosing Us!*  
*We hope it brings you joy, connection, and a touch of wonder.*

# Quick Start Guide

Follow these steps to connect your SE X-Bot to Wi-Fi and complete activation:

**1 Power On**  
 Press the power button on the back of the head. A QR code will appear after startup.

**2 Scan the QR Code**  
 Open your phone's camera and scan the QR code. A network connection prompt will appear on the camera screen.

**3 Join the Network**  
 Tap the prompt and wait about 10 seconds, then exit the camera app.  
*(On Android phones, the system may automatically jump to Wi-Fi settings after tapping the prompt.)*

**4 Connect to Wi-Fi**  
 Go to your phone's Wi-Fi settings. The system will automatically open the configuration page. Select the strongest Wi-Fi signal, enter the password, and tap Connect.

**5 Reboot**  
 After a successful connection, the head will prompt for a restart. Once restarted, it will announce "Network connected" by voice.

**6 Record Activation Code**  
 The head will speak a 6-digit activation code. Please note it down.

□ □ □ □ □ □

**7 Activate the Device**

Visit the official SEDOLL website at [www.sedoll.com](http://www.sedoll.com). After successfully logging into My Account, click/tap the My Account button:

- On PC (desktop): located in the top right corner.
- On mobile: located in the bottom right corner.
- If you already have an account, log in directly.
- If you don't have an account yet, register a new one first.

Once registration is complete, log in to the AI Head system and enter the 6-digit activation code you received. Your device will then be successfully activated.

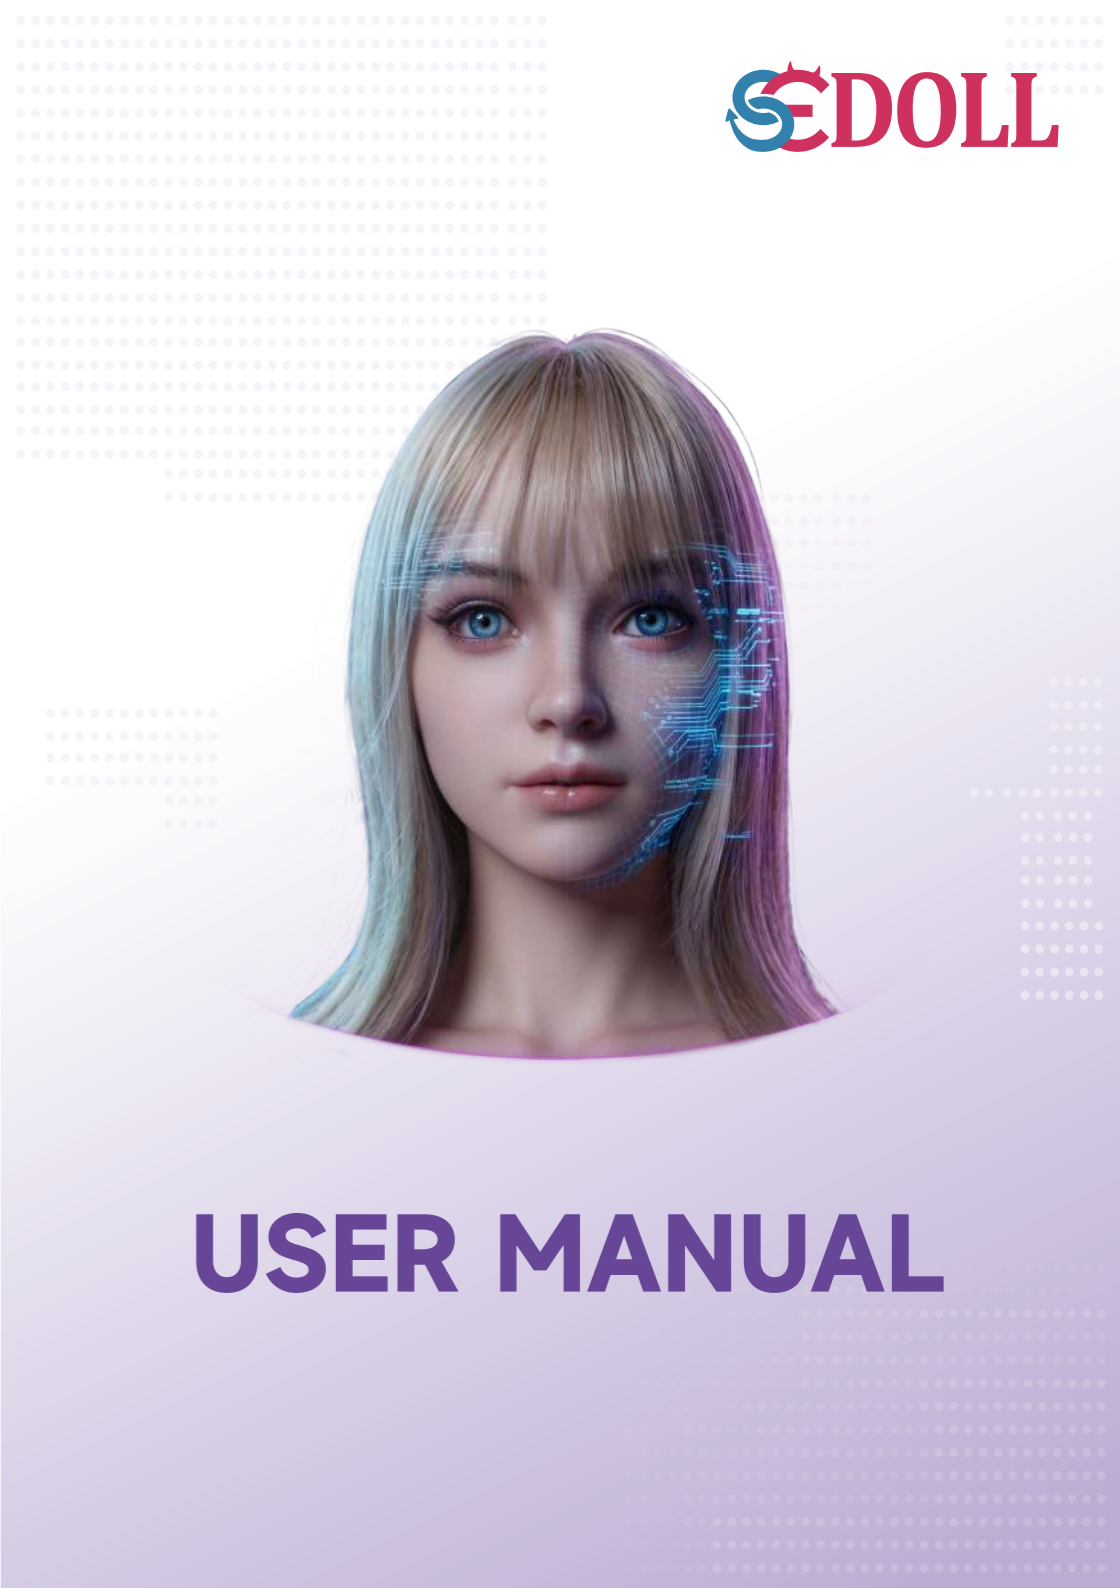

**8 Activation Complete**  
 When the name appears after entering the code, activation is successful.

**9 Start Story Experience**  
 Go to the member center, tap a story card to open the confirmation window.

**10 Begin**  
 Tap Start Story Experience and select your desired story.

**! Note:**

- If the device does not respond for a long time during the networking process, press the black network configuration button once.
- After successful activation, for the best experience, we recommend restarting the device before starting a conversation. The head will automatically enter Story Mode.

# USER MANUAL

## Introduction

Welcome to SE X-Bot. SE X-Bot is SEDOLL's AI-powered robot head, carefully designed to bring gentle expressions and natural interaction to your silicone companion.

### Main Features:

- ◆ Multiple gentle expressions: wink, smile, surprise and more.

- ◆ Built-in AI system for smoother interaction.

- ◆ Dual-mode configuration. (can work independently on its dedicated head stand or paired with a silicone body)

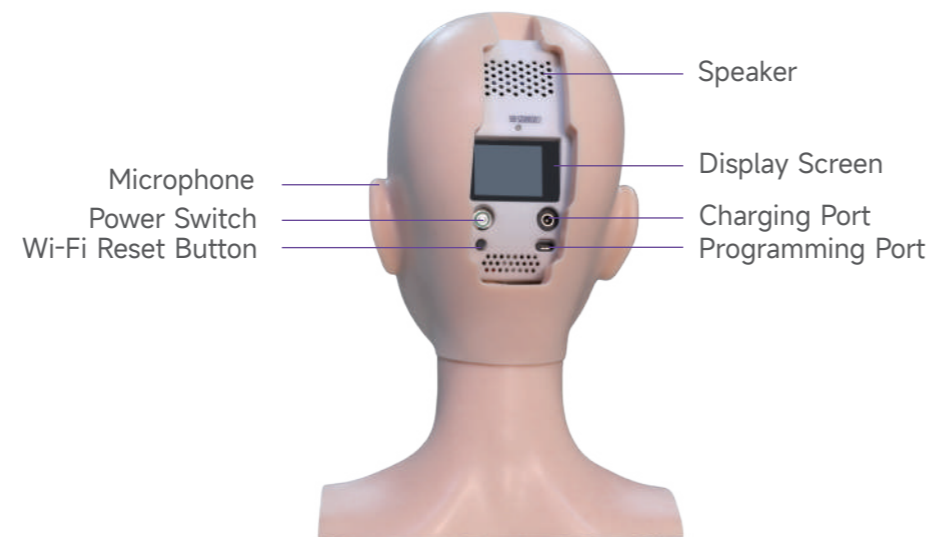

- ◆ Supports 7 languages.

- ◆ Supports OTA online upgrades. SE X-Bot offers a simple and harmonious way to upgrade your existing doll.

## Function Key Overview (See Diagram)

## Package Contents

Your SE X-Bot package includes the following items:

- ◆ SE X-Bot Head × 1
- ◆ Head-Neck Connector × 1
- ◆ User Manual × 1
- ◆ Power Adapter (Input: AC 100–240V / Output: DC 12.6V 1.5A) × 1
- ◆ High-Quality Wig × 1
- ◆ Silicone Head Stand × 1

**Note:** The silicone body is not included in the package.

## Installation

Follow these simple steps to install your SE X-Bot head:

### Step 1: Prepare the Connector

Take out the Head-Neck Connector and screw the threaded end firmly into the head stand clockwise.

### Step 2: Align the Head

Align the interface at the bottom of the SE X-Bot head with the connector. Gently pull the metal latch outward to open it.

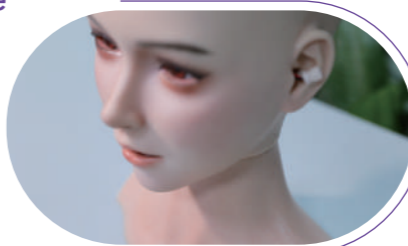

### Step 3: Insert and Secure

Insert the connector into the head's interface, making sure the latch aligns with the groove on the connector.

### Step 4: Lock into Place

Release the latch. You will hear a clear "click" sound when the head is securely locked.

**Note:** Do not force the parts. If it does not click easily, realign and try again.

## Safety Precautions

To ensure safe and long-lasting use of your SE X-Bot, please observe the following precautions:

### ◆ Environment

Avoid using or storing the head in high temperatures, humid places, dusty areas, or under direct sunlight for prolonged periods.

### ◆ Charging Safety

Use only the original power adapter (AC 100–240V). If the head becomes unusually hot, produces an odd smell, or if the charger is damaged during charging, immediately disconnect the power.

### ◆ Mechanical Protection

Do not pull, twist, or impact the head forcefully. When installing, always ensure the spring pin (latch) is securely locked with a clear "click".

### ◆ Voice Recognition

For better voice recognition, speak close to the built-in microphones located in the ears and try to minimize background noise.

### ◆ Storage

When the product will not be used for a long time, disconnect the power and store it in a cool, dry place.

### ◆ Cleaning

If the surface feels oily or sticky, lightly apply baby powder or cornstarch and gently wipe it off. Do not use harsh chemicals or abrasive cleaners.

### ◆ Important

This product is intended for adult use only. Never attempt to disassemble or repair the head yourself.
